Minimalist table design. Battens in hardwood or Duraslat™ colors supported by a tapered steel frame in powder-coat or galvanized finishes.

Description

Rectangular battens and a tapered steel frame combine to deliver a modern table design that takes its cues from 20th century industrial design. The functional feel and light appearance of the Avenue table complements and sits within most public spaces. Finishes include hardwood or Duraslat™ colors and powder-coat finishes or a galvanized finish.

Sustainability

Certified Hardwood
Australian Eucalyptus hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world’s largest forestry certification system.

Material Alternatives
We offer sustainable alternatives to hardwood, such as Duraslat™; a mineral-based composite material that contains no Volatile Organic Compounds (VOCs) and is engineered using up to 46% natural filler that is based on a renewable mineral.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn’t emit VOCs and has Environmental Product Declarations (EPDs) that enable projects to qualify for LEED credits.
